

SSL's Environmental Policy

Spedition Services Ltd acknowledges its responsibility to, and the commercial advantages of, maintaining a sound environmental policy and approach which meets the requirements of the EN ISO 14001:2015.

We recognise the importance of, no matter how small, the impact of our activities on the environment and that there is a need to constantly consider ways in which we can conserve energy and minimise waste in all activities that we undertake.

In addition to compliance with all relevant legislation and regulations, we endeavour to take positive action in reducing impact on the environment by a measured programme of focused activities.

AIR Pollution / Global warming

It is our goal to reduce the CO2 per km related to our own company car vehicle fleet as well as positively discriminate the Suppliers with an environmental certificate or environmentally friendly policy and equipment (Truck Engine type) where possible from a commercial point of view, and in line with our customers' requirements.

Waste Management

It is our policy to work with our staff and suppliers to ensure that all waste is disposed of in line with legal and environmental requirements.

Recycling and use of Recycling Materials

To utilise and promote the use of, recycled materials whenever possible, ensuring that materials are disposed of in an environmentally safe manner at the end of their useful life.

Energy Conservation

To manage electricity supplies to ensure minimum consumption through energy efficient initiatives. It is our policy to make efficient use of natural light within our building and to conserve energy by adopting an 'only' turn on when using' approach to equipment.

Site Maintenance

To effectively manage our site within our limitations to conduct environmental awareness and maintain safe environmental practices.

Environmental Management Awareness

To raise and maintain a high level of understanding of, and participation in, environmental best practices by all staff and suppliers.
